

Turning a challenge into a learning curve. Just another day at the office for a high performer.

High performance. Delivered.

Accenture Consulting Analyst Intern – Application Development & Management

Accenture is a world leader in application development and management, with more than 30 years of experience and a proven track record of transformational projects. Our professionals draw on deep technology skills, functional experience and industry knowledge to design and deliver IT systems that help our clients become high-performance businesses and governments. Accenture is recruiting undergraduate students for paid summer internships with Application Development and Management Consulting.

Responsibilities

As a consulting analyst intern, you will design and deliver innovative solutions for clients based on existing packages, such as SAP and Oracle, or custom-built systems that help clients accelerate business innovation. Working in the capacity of a full-time consulting analyst, you will:

- Work on complex systems and application integration projects for clients across industries
- Be involved from the concept stage of analyzing existing processes and designing, through to delivering and integrating the solutions
- Develop a broad set of technology skills in areas like SAP, Oracle, Service Oriented Architecture, Mobility, Open Source or technology architecture
- Collaborate with project teams made up of people with diverse and complementary skills

Your daily responsibilities will vary by project, but you may find yourself:

- Analyzing and documenting current business processes and technologies
- Designing and testing new business processes, capabilities, and technologies
- Developing communications and training materials
- Building portions of the application
- Focusing on program management

Paid internships last 10 – 12 weeks and typically begin in late-May/early-June and end in mid-August/early-September. Rising Senior Interns attend a three-day leadership conference in the Chicago area with all Accenture interns from across the US.

Intern Basic Qualifications

- Current undergraduate and graduate students earning a degree with a graduation date between December 1, 2011 and June 30, 2012

Intern Job Requirements:

We are seeking highly motivated individuals who meet the following criteria:

- A track record of outstanding academic performance.
- Eagerness to contribute in a team-oriented environment
- Ability to work creatively and analytically in a problem-solving environment
- Ability to meet client travel requirements, when applicable
- Excellent leadership, communication (written and oral) and interpersonal skills

Preferred Qualifications:

Our preferred majors are:

- Engineering (all disciplines)
- Computer Science / Computer Engineering
- Information Systems / Decision Sciences
- Mathematics / Statistics / Sciences
- Finance / Accounting / Economics

Applicants for employment in the US must have work authorization that does not now or in the future require sponsorship of a visa for employment authorization in the United States and with Accenture (i.e., H1-B visa, F-1 visa (OPT), TN visa or any other non-immigrant status).

Candidates who are currently employed by a client of Accenture or an affiliated Accenture business may not be eligible for consideration.

Accenture is an Equal Opportunity Employer.

Accenture recruits for entry level internship positions in several groups; Application Development and Management, Management Consulting, and Technology Consulting. Recruiters will work to align you with the appropriate group based on your background, qualifications, experience, interest and business demand.

How to Apply

In addition to your BruinView resume drop, you must also complete an online application by **Friday, February 18th** in order to be considered for an interview.

- Visit www.careers.accenture.com/jobs
- Search for Job Number: 00114650

Guidelines:

If you previously applied for a position at Accenture (e.g., internship), use the User ID and password you created at that time.

To save your application and come back to it at another time please ensure you have completed the page you are working on, after which you can save your application and return to it later. **You will need your log-in user name and password to do this – make sure to note it for future reference.**

Please note that you must fill in all **asterisk (*) fields** before you are able to move to the next page.

Required fields:

1. Please indicate how you heard about our job opportunities.
 - a. **Source Type:** University Recruiting
 - b. **Specific:** Career Center (do not select University Career Center)
 - c. **Personal Information:** Enter all relevant information
2. Employment Questionnaire page – Please make sure to answer **ALL** of the questions on this page.
3. Job Specific Questions – Please answer **ALL** questions on this page.
4. Work History & Education – Please complete this section with **ALL** of your work experience and education to date.
 - a. Please fill in the name of the company, the dates of employment, your responsibilities, your supervisor name, supervisor number, and “May we contact your supervisor” (must be answered with “Yes” or “Yes, After Offer”).
 - b. Please complete the schools you have attended, the dates of attendance, education level, Overall GPA (not rounded), and percentage of degree already completed.
5. Document Attachment – Please attach a resume and transcript to your application
6. Review your entire application and upon verifying the information is accurate, click submit.

If you confront any technical difficulties along the way please use the **Help** function on the top right of each page. Only if you are unable to resolve your issues, please contact me at: renee.severyn@accenture.com

After submitting your application, you will receive system-generated acknowledgment(s) from “Human Resources”. Note that this does not mean you have been selected to interview with Accenture. Please refer to your campus career center posting/website to see whether you have been selected for a first round interview with Accenture.
